- We need to make sure all members continue to know what's going on. We need a lot of volunteer labor and donations to help build and pay for it all.
- We ask members present tonight to communicate to all what is going on and what good things we are trying to do with the baffles.

### ***Minutes:***

- The November minutes were accepted as published.

### ***Recognition:***

- The club honored our range officers, assistant range officer, and board member Ken with applause and a small financial token of our esteem. One member commented that RF&G is the only range he had been to where it was okay to just chat with the people there.

### *Grounds:* LaMarr Hood

- Robb Wolfe made arrangements to replace the gutter here at the clubhouse; they also added more down spouts.
- We did get the leaves removed from the building roofs at the rifle range and the gutters cleaned out.
- We cleaned up the range buildings along with blowing the leaves away from the buildings for the Thanksgiving week, and replace old target backers and placed some in storage.
- Some where underground we have a water leak, the water meter is on a constant spin. We couldn't find where the leak was coming from. Calls when out to plumbers and they didn't do leak detection. We were given a name for "Underground Detection". They can't come out when shooting is going on. I have scheduled a meeting with them for 9:00 Tuesday morning. They put air into the lines to detect where the leak is, and use a listening device to find the leak. Cost \$375.00 for the first two hours and \$175 each hour after.
- LaMarr will contact Jackie to let her know of the time the water will be off.

## December 2009 Renton Fish & Game Board Minutes

### **IDPA** Scott Johnson

- Our most recent match was November 14<sup>th</sup>, when we started this seasons IDPA Night Shoots. The weather was cold but clear. This is a controlled group by "invitation only". This occasion had 13 participants. We set up 2 stages & by flashlight practiced target identification & shooting.
- Our most recent match was November 21<sup>st</sup>, the weather was very cool but had just enough precipitation that we kept the cardboard targets in day cleaner bags. There were 67 shooters, of which we had additional competitors from at least Canada & California. There were seven stages with great scenarios & a minimum count of 88 rounds required for the course. The "Back Up Gun side stage" that was cancelled in October was run in November. 13 shooters stayed & participated in the additional 2 stages & 10 more rounds of shooting. All participants had an enjoyable and safe time. \$660 dollars were turned into the club.
